## Your Donations - Doing a World of Good!

Angela is a single mother of two children under the age of four who was diagnosed with breast cancer two months ago. She has support from her sister, who lives nearby, but no way to care for her children while she undergoes treatment five times weekly in Boston.

In addition, she has no way to get home from her treatment sessions, which often leave her too exhausted to drive or take public transportation. As if that wasn't enough, she also had to file for disability, which leaves her with a very tight budget.

Thanks to the generosity of our donors, we are able to provide transportation for Angela, and daycare for her kids, for the next three months. Angela is now able to provide for herself and her family without fear of collapsing her budget.

This is how we use your kind donations!
